EXTINGUISHING MEDIA: In case of fire use CO₂, Dry Chemical, form or other National Fire Protection Association approved method for treating a Class B Fire.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Keep containers tightly closed. Isolate from heat and figure. Due to pressure build-up

UNUSUAL FIRE AND EXPLOSION HAZARDS: Keep containers tightly closed. Isolate from heat and figure. Due to pressure build-up closed containers exposed to extreme heat may explode. Never use a welding or cutting torch on or hear container (even empty) as product or its residue may ignite. During emergency conditions, ouvernossure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent, Obtain medical attention. SPECIAL FIRE FIGHTIMS PROCEDURES: Summon professional firefighters. Use full protective equipment including self contained breathing apparatus. Nater spray may be ineffective. If water is used, log mozzles are preferable. If exposed to fire or extreme heat, water should be used to cool closed containers and prevent pressure build-up or possible auto-jonition. SECTION V - HEALTH HAZARD DATA THRESHOLD LIMIT VALUE See Section II EFFECTS OF OVEREXPOSURE ACUTE Breathing Irritation of the respiratory tract; headache, nausea, dizziness, weatness and fatique. Extreme exposure can result in unconsciousness and even respiratory arrest. Skin or Eye Contact: Primery irritation. Swallowing: Can cause stomach and/or intestinal irritation, nausea, vomiting and diarrhea. Aspiration of vomitus can cause chemical pneumonitis, which can be fatal.

CHROHIC- Reports have associated repeated and prolonged occupational overexposure to solvents with personent brain and nervous system damage. Prolonged and repeated breathing of spray mist and/or sanding dust over a period of years pay cause dust disease of the lungs.

MEDICAL CONDITIONS PROME TO AGGRAVATION BY EXPOSURE- Mone when used in accordance with Safe Mandling and Use Information (See Section VIII). PRIMARY ROUIE(S) OF EMIRY X-BREATHING X-SWALLOWING #5-1C Section V Continued on West Page

MERSENCY AND FIRST AID PROCEDURES If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, suppose and suppose suppose and suppose suppose and suppose IF IN EYES: IF ON SKIN: assistance if irritation persists.

IF SWALLONED: DO NOT INDUCE VONITING, Consult physician immediately. Aspiration of vomitus can cause chemical pneusopitus which can be fatal. ARKING: Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. SECTION VI - REACTIVITY DATA X-STABLE TABILITY UNSTABLE Avoid contact with strong oxidizing agents.

Avoid contact with strong oxidizing agents.

Hay cause hazardous funes when heated to decomposition. Funes may contain carbon monoxide, carbon dioxide and oxides of metals listed in Section II.

MAY OCCUR

N-MILL NOT OCCUR HCOMPATIBILITY: AZARDOUS DECOMPOSITION PRODUCTS: AZARDOUS POLYMERIZATION SECTION VII - SPILL OR LEAK PROCEDURES TEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Repove all sources of ignition (heat, flame). Do not smote, Avoid breathing vapors. Before attempting clean-up refer to becard caution information in other sections of this material safety data form. Ventilate grea. Contain spilled material and remove with inert absorbent and non-sparking tools, Store in closed containers until properly disposed of. ASIE DISPOSAL RETHOD: Dispose of in accordance with local, state and federal regulations. Incinerate only in approved facility. Do not incinerate closed containers. SECTION VIII - SAFE HANDLING AND USE INFORMATION ESPIRATORY PROTECTION: Bo not breathe vapors, spray mist or sanding dust. When spray applied in outdoor or open areas with unrestricted ventilation, and during sanding or grinding operations, use HIOSKYMSNA approved mechanical filter respirator to remove solid simborne particles of overspray and sanding dust. When used in restricted areas, wear HIOSKYMSNA approved chemical/mechanical filters designed to remove a combination of particulates and vapor. When used in confined areas, wear HIOSKYMSNA approved air supply respirators or hoods. Use HIOSKYMSNA approved respirators when flame cutting, welding, brazing and sanding material coated with this product. Follow respirator manufacturer's directions for respirator use.

ENTITIATION: New only with adentity manufacturery and sanding the sanding transfer of the sandi EXTIGITION: Use only with adequate ventilation. Provide general dilution or local exhaust ventilation in volume and pattern to keep air contaminant concentration below current applicable safety and health standards in the mixing, application and coring areas, and to remove sanding dusts of dried coating and decomposition product during welding and liame cutting on surfaces coated with this product. Neavy solvent vapors should be removed from lower levels of the work area and all included and country country. surraces course with airs products, neary solvent respons should be removed from lower levels or the windless for not get on skin. Solvent impermeable gloves to prevent contact are recommended, VE PROTECTION: Do not get in eyes. Solvent resistant safety eyenear with splash guards or sideshields is recommended to prevent contact.

THER PROTECTIVE ENGINEEM: Do not get on skin. Solvent impermeable clothing and boots to prevent contact are recommended.

THER PROTECTIVE ENGINEEM: Do not get on skin. Solvent impermeable clothing and boots to prevent contact are recommended.

THER PROTECTIVE ENGINEEM: Remove and wash soiled clothing before reuse. Wash hands before eating, smaling or using the washroom. SECTION IX - OTHER PRECAUTIONS RECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Keep away from heat and flame. Do not smoke. Prevent build-up of vapors by maintaining continuous flow of fresh air. Do not store above 120°F or near fire or open flame. Store large quantities in buildings designed to comply with OSHA 1910.106. Reep container closed when not in use. Do not transfer contents to bottles or other unlabelled containers. Bo not reuse empty containers. Rees out of reach of children.

he information contained herein is based on data believed by this company to be accurate, but we do not assume it liability for the accuracy of this information. We neither suggest nor guarantee that any hazards mentioned are the ray ones which exist. Anyone intending to rely on any recommendation or to use any equipment, technique or material entioned should also satisfy himself that he can meet all applicable safety and health standards. Determination of the sitability of any information or product for the use contemplated by any user, the manner of that use and whether there any infringement of patents is the sole responsibility of the user.
